J. B. DUNCAN SENDS LETTER FROM SOUTH AMERICA.

LOCATED IN ARGENTINE

Interesting Communication Regarding Origin and Progress of Progressive Southern City.

James B. Duncan, a former Maryville attorney and a son of Prof. B. F. Duncan of this city, is writing several interesting letters for the Democrat-Forum that contain some instructive facts concerning the Argentine Republic and Buenos Aires, where he is now located. He has been in the legal department of the Buenos Aires and Pacific railway company for several months and is in position to gain much authentic information in regard to that great city and country.

Previous to Mr. Duncan's location at Buenos Aires, he spent several months in Europe. Our first communication from him is as follows:

When Don Pedro de Mendoza left Spain on St. Bartholomew's day 1534, on an expedition of colonization, with a squadron of fourteen vessels, 2,000 men and a considerable quantity of farm implements and live stock, and arrived at the River Plate on February 2, 1535, he laid on the southern bank of the river the foundation of what is destined to be the most beautiful city in the world—Santa Maria de Buenos Aires, so called because of the good breezes that blow in these parts.

Disease, famine and Indian wars reduced his colony; disastrous years followed and the almost deserted settlement was set on fire and completely destroyed.

In 1580 the city was refounded on the abandoned site. The live stock left by former settlers had increased greatly in numbers, which fact determined Don Juan de Garay to issue an extensive propaganda for the division of the land into city lots, farms, market property, property for churches and religious orders.

The first royal governor was Don Diego de Gongora, a knight of the order of Santiago, whom the city received with ceremonial honor on the 17th of November, 1618.

Buenos Aires from its earliest history has been harassed by pirates. In 1585 the men of the town overpowered the British corsair, Edward Fontana, and in 1587 the career of the buccaneer was terminated. In 1618 the Dutch attempted a conquest of the colony, but were defeated. In 1608 the town council engaged a teacher for \$1 per month to hold classes for the children in reading and Christian doctrine, and \$2 per month for writing—undoubtedly the first seed of the present school system of Argentina.

In 1664 the city consisted of 400 houses, occupied by a number of citizens, who, with their families, servants and residents lacking citizenship and transients, made a total population of 4,000.

On June 23, 1806, the city was attacked and taken by a combined force of the British army and the navy, and shortly afterward, notwithstanding a stiff resistance, the British were routed August 12, 1806.

Another attempt was made by the British to regain their lost position, but was repulsed after a hard fought battle in the streets.

These brief statements were gathered from an old Spanish history of the republic by me, as of interest to one temporarily sojourning here.

On May 25, 1810, the inhabitants of the city gathered in front of what is now known as Plaza Victoria and declared themselves forever free from the Spanish yoke.

As the province, that had thus become independent, developed from year to year an ever strengthening relationship that was destined to be the tie that was to bind them all indissolubly into a nation having a republican form of government, they were enabled to resist frequent attacks

later from outside sources, and, though marked by various degrees of mutual distrust, discord and oftentimes revolution, the city steadily gained from the ever changing political conditions resulting therefrom.

On September 26, 1850, congress met at Belgrano and formally declared Buenos Aires to be the capital of the nation, the city being created a federal district for that purpose.

In 1910 the city and port of Buenos Aires were the scene of a grand military and naval demonstration, in which the powers of the world were all represented by some part of their armed forces, followed by a series of international expositions in the city, all in honor of the centenary of the national independence, and the city has been moving along with gigantic strides ever since.

TO HAVE CHAUTAUQUA.

Barnard Will Have One This Year—Other Items of Interest From That Place.

Mr. and Mrs. Wm. Fanning of Olathe, Kan., left for their home Monday morning after visiting at the home of Samuel Conlin for some ten days. A reunion of the Conlin family was held Sunday.

John Neal of Savannah was on our streets Monday. He has sold his barbershop on account of ill health and is looking for a location.

Rev. Sounners of the Church of Christ preached in Barnard Sunday, Monday and Tuesday nights.

Mr. Dewitt spent two days the first of this week in the home of Andrew Jensen of Wilcox.

Barnard is greatly in need of a water works system. We have a splendid site on which to place a tower, which would give us unusual pleasure. Our citizens, we believe, are public spirited enough to vote the money necessary if given the opportunity. Insurance is very high and our rates would be cut in two by the putting in of a water system.

Preaching both morning and evening at the M. E. church South, next Sunday, May 4. Everyone invited.

Mrs. Wm. Rasco and Mrs. H. Groves left for St. Joseph Thursday morning.

Todd Rector has returned from the West and is again at home in Barnard.

Mrs. Bessie Wallace of St. Joseph is visiting her parents, Mr. and Mrs. Key, west of town.

Mrs. Wm. Hoshor of west of town is in the hospital at Maryville, having undergone an operation a few days ago. She is getting along as well as could be expected.

The infant son of Mr. and Mrs. Charles Rice died April 10, 1913. Charles Wallace Rice, though dying the same day that he was born, will not be forgotten, nor was his short life in vain. May his parents recognize that now they have new and added interests in the Kingdom of God.

Mrs. Dewitt, who has been in California the past six weeks, left Los Angeles for Ventina, Col., Saturday the 26th. She will stop with a brother there for a week or more, then return home.

Commencement exercises for White township Friday at Pleasant Grove church.

John Turner, west of town, purchased a new Reo car of Campbell & Pollard and made his initial run to Elmo Monday.

Barnard will have a chautauqua this summer. Contract has already been made for talent. This ought to be an improvement over our picnic and will attract more good citizens and less of the undesirable class.

Gun Returned to Owner.

The shotgun used by Hez Rasco in the murder of the Oda Hubbell family on the night of November 20, 1910, was sent Tuesday by Circuit Clerk Eugene Rathbun to Joseph Clayton at Guilford, the owner. The gun has been in the possession of Mr. Rathbun since the Rasco trial.

Miss Alta Rucker of Worth returned home Thursday from a visit at the home of Mr. and Mrs. Frank Barrock.

WHAT THEY DO AT HOPKINS.

Autoists Pay Fifty Cents a Month for Dragging Streets and Keeping Up Crossings There.

According to this week's Journal, a movement has been inaugurated at Hopkins by Petis Lewis among the automobile owners to have the streets of the town dragged and the bad crossings put in proper condition. Each autoist is asked to pay fifty cents a month and this money goes into a fund to pay for the work. The city has as much work done on the streets and crossings as the limited amount of money in the treasury will permit.

TO GO TO NEVADA.

Company F to Encampment July 12-21 Forty-Three Members In the Company.

Captain Ezra Phipps of Company F of this city has received formal announcement of the state encampment to be held in Nevada, July 12 to 21. Captain Phipps has been working hard with the boys here and expects to review in good fashion before Governor Major and Adjutant General O'Meara on the Vernon county battle fields during the sunny days of July. Company F has now forty-three men and the captain expects to have more for the ten days' outing.

The filing of the suit Thursday is the second suit against Hoshor, the first one being filed Tuesday by Grant Borchers, the father of Pearl Borchers, against Hoshor for \$10,000, charging a statutory offense.

The petition states that plaintiff for cause of action against defendant says that an assault was made upon plaintiff by the defendant on April 18, 1913, while plaintiff was at the home of the defendant, forcefully and against the will of plaintiff. Plaintiff further states to escape the further assaults of the defendant, she was compelled to and did seek refuge in the home of strangers, where she remained for some time.

The amount asked for is \$5,000 actual and \$5,000 punitive damages.

A charge of vagrancy was brought against Pearl Borchers Monday in Justice W. L. Johnson's court, but was dismissed. An effort was being made to send the girl to the Industrial Home at Chillicothe.

Beautiful May Day Wedding.

Cloudless skies and flower-laden bush and tree everywhere greeted Maryville's May-day bride, Miss Clara Davenport. Friends assembled at high noon, Thursday, at the home of the bride's mother, Mrs. S. B. Davenport, 121 South Buchanan street, to witness the ceremony that united in the holy bonds of matrimony, Miss Clara Davenport and Mr. Dale VanFossan. The ring ceremony was used by the minister, Rev. Claude J. Miller of the First Christian church. The colors of green and white prevailed in the decorations of the rooms. Ferns, white Killarney roses and white carnations combined in making very attractive adornment. The vows were taken by the bridal couple before a solid bank of ferns. The bride's gown was of white satin, draped with shadowlace and held by pearl ornaments. Her filmy veil was held in place by orange blossoms sent her by her sister, Mrs. Will Roberts of Petaluma, Cal. Her shower bouquet was of bride roses. The bridesmaid, Miss Maud Ferguson of Rosendale, wore white crepe meteor and carried a bouquet of cream roses, and wore some of the same blossoms in her hair. Mr. Fred Fritchman of Savannah was best man. As the bridal party took their places for the ceremony, Miss Edith Davenport, a sister of the bride, played Mendelssohn's wedding march. Immediately after the ceremony a three-course wedding luncheon in white was served by the bride's mother and her sisters, Misses Edith, Anna and Marie Davenport.

The guest list included Mr. and Mrs. S. A. Van Fossan of Bolckow, parents

J. Miller.

The bride and groom left in the afternoon in the VanFossan car with Mr. VanFossan's parents for Bolckow, where they took the evening Burlington train for Fairmont, Neb., and will be at home on the groom's farm, two miles from Fairmont, upon their arrival. The good wishes of many friends of the young couple will follow them. The bride is a graduate of the Northwest Normal and has been teaching successfully for two years. Kayser "Wonderfoot" Silk Hose

Kayser says of this hose that it is truly a "Wonderfoot." The foot is protected against wear, through an interweaving of lisle thread on the sole, heel and toe. This interweaving of lisle thread, which does not show on the outer side, so strengthens the wearing qualities of the foot that it will outwear the rest of the stocking, and in no way mar its beauty. The elegance of silk stockings makes them the preference of the gentlewomen, who frequently hesitates to buy them on account of their poor wear. The "Wonderfoot" has overcome this objection. This feature together with the reinforced garter top which defies the destructive clasp of the hose supporters, makes a silk stocking that owing to its reinforced qualities is more durable than even a lisle thread stocking, the foot being a combination of both lisle thread and silk. To secure the genuine look in the hem for the words "KAYSER'S RE-INFORCED GARTER HEM," on the sole for the word "WONDERFOOT."

Price \$1.50 per pair.

Lady in Goodwater Describes Her Distressing Experience and Tells How She Was Finally Relieved.

Goodwater, Mo.—"Ever since I was a little girl," says Mrs. Riley Laramore, "I was a great sufferer from dyspepsia. I suffered misery after eating, and had terrible heartburn."

I thought I had to suffer this way as long as I lived, but when I began to take Thedford's Black-Draught, in small doses, every night, the heartburn was all gone in a few days, and I could eat without distress.

I took two small packages in all, and although that was some time ago, the dyspepsia has not returned.

I speak a good word for Thedford's Black-Draught whenever I have the opportunity."

If eating causes distress, we urge you to try Thedford's Black-Draught. It cleanses the system, helps the stomach to digest its food, regulates the bowels, and stimulates the liver.

It acts gently and is without bad after-effects. Try it. Price 25c.

M'CARTY OUTFIGHTS MORAN

Has Better of Ten Round Bout With Pittsburgh Heavyweight.

New York, May 1.—Luther McCarty outfought Frank Moran, the Pittsburgh heavyweight, in a ten-round bout here.

The fighting was at a fast pace for heavyweights. Moran did most of the leading and frequently the men stood toe to toe and swapped punches, both receiving much punishment about the body. McCarty relied on a hard left to the face, but often left his guard open, enabling his opponent to land a strong left hook. McCarty had the better of the first round, but Moran evened it up in the next. In the fourth Moran landed a straight left, drawing blood from McCarty's nose. The fifth was even, but McCarty took the next two. McCarty tired in the eighth, a left hook sending him to the ropes, and in the ninth Moran landed several good blows. McCarty finished strong, landing often in the last round.

GIVING WHISKEY AWAY!

James Markwell Arrested, Charged With Giving a City Prisoner Whiskey.

James Markwell was arrested Thursday by Marshal Moberly, the charge being giving whiskey away to a city prisoner. Markwell pleaded not guilty and will be tried before Mayor Robey Friday morning at ten o'clock.

Markwell, it is said, gave a bottle of whiskey to Charles Bramble, who is now a city prisoner, working out his fine. Bramble was at the time working on the streets under the direction of Street Commissioner Woods, but Mr. Woods did not see the whiskey given to him, but discovered it later when Bramble became intoxicated.

Mayor Robey is trying to put a stop to the custom of a few giving city prisoners whiskey.

ALL AMENDMENTS ARE BOWLED OVER

Efforts of Republicans to Alter Tariff Bill Prove Failure.

PERSONALITIES INDULGED IN.

Underwood Predicts Revenue Measure Will Be Ready to Be Transferred to Senate Saturday—Mann Says the Sooner Will Be the Better.

Washington, May 1.—"I think we'll finish with the tariff bill in the house by Saturday night," said Democratic Leader Underwood, after an all day debate on the iron and steel schedule.

The metal schedule is only the third of the fourteen schedules which are followed by the free list, the technicalities of the administrative provisions and the income tax plan, and many of the members of the house are prepared to see the debate stretch into next week. Representative Gardner (Mass.), one of the Republican members of the ways and means committee, figured on the passage of the measure about next Tuesday night. But Mr. Underwood, smiling and confident, saw nothing to disturb the plan for shifting the scene of the tariff battle to the senate with the opening of next week. The plan is to have the measure adopted within an hour after the reading for amendments has been concluded.

The Democrats with their overwhelming majority again bowed over all amendments proposed by the Republicans and Progressives. The ways and means committee, however, had ready and carried a number of its own amendments, all of a minor character, and designed to perfect the schedule.

The iron and steel schedule was the special target of attack, and Representative Palmer (Pa.), in charge of that schedule for the ways and means committee, was frequently reminded from the Republican side of the fact that the Bethlehem Steel company was in his district. Representative Mann (Ill.), the Republican leader, and others charged that the duty on ferro manganese was distinctly in the interest of the United States Steel corporation, with its numerous subsidiary plants, and that the enhancement of the value of ferro manganese in this country, under the proposed advance in rate, should be sufficient to warrant the Pennsylvania member's indefinite continuance in congress.

Mr. Mann declared, however, that while he thought the pending bill would be very injurious to the country, he did not believe in prolonging the agony unnecessarily and suggested that "as we are to have the passage in present form, the sooner the better."

Personalities were indulged in several times.

M'ADOO HAS NEW POLICY

Banks Must Pay Two Per Cent Interest on Government Funds.

Washington, May 1.—The fiscal system of the United States governing deposits of federal funds in national banks was revolutionized by Secretary McAdoo of the treasury department with an announcement that all government depositories, whether active or inactive, would be required to pay interest at the rate of 2 per cent per annum beginning June 1 upon deposits of the government.

Simultaneously with this action the secretary authorized an immediate increase of \$10,000,000 in government deposits in the national banks, making the total \$52,649,964 from which the federal treasury will earn, under the new interest order, \$1,053,000 annually.

There are indications that Secretary McAdoo intends to release still more surplus money from the treasury vaults, and place it in general circulation through increased deposits with the national banks.

Paris, May 1.—Christabel Pankhurst, daughter of Mrs. Emmeline Pankhurst, suffragette leader, and herself a militant, said that the raiding of the headquarters of the Women's Social and Political union in London and the arrest of its officers would merely stimulate the suffragettes to renewed activity in their campaign to secure "votes for women."

J. B. DUNCAN SENDS LETTER FROM SOUTH AMERICA.

LOCATED IN ARGENTINE

Interesting Communication Regarding Origin and Progress of Progressive Southern City.

James B. Duncan, a former Maryville attorney and a son of Prof. B. F. Duncan of this city, is writing several interesting letters for the Democrat-Forum that contain some instructive facts concerning the Argentine Republic and Buenos Aires, where he is now located. He has been in the legal department of the Buenos Aires and Pacific railway company for several months and is in position to gain much authentic information in regard to that great city and country.

Previous to Mr. Duncan's location at Buenos Aires, he spent several months in Europe. Our first communication from him is as follows:

When Don Pedro de Mendoza left Spain on St. Bartholomew's day 1534, on an expedition of colonization, with a squadron of fourteen vessels, 2,069 men and a considerable quantity of farm implements and live stock, and arrived at the River Platte on February 2, 1535, he laid on the southern bank of the river the foundation of what is destined to be the most beautiful city in the world—Santa Maria de Buenos Aires, so called because of the good breezes that blow in these parts.

Disease, famine and Indian wars reduced his colony; disastrous years followed and the almost deserted settlement was set on fire and completely destroyed.

In 1580 the city was refounded on the abandoned site. The live stock left by former settlers had increased greatly in numbers, which fact determined Don Juan de Garay to issue an extensive propaganda for the division of the land into city lots, farms, market property, property for churches and religious orders.

The first royal governor was Don Diego de Gongora, a knight of the order of Santiago, whom the city received with ceremonial honor on the 17th of November, 1618.

Buenos Aires from its earliest history has been harassed by pirates. In 1585 the men of the town overpowered the British corsair, Edward Fontana, and in 1587 the career of the buccaneer was terminated. In 1618 the Dutch attempted a conquest of the colony, but were defeated. In 1608 the town council engaged a teacher for \$1 per month to hold classes for the children in reading and Christian doctrine, and \$2 per month for writing—undoubtedly the first seed of the present school system of Argentina.

In 1664 the city consisted of 400 houses, occupied by a number of citizens, who, with their families, servants and residents lacking citizenship and transients, made a total population of 4,000.

On June 23, 1806, the city was attacked and taken by a combined force of the British army and the navy, and shortly afterward, notwithstanding a stiff resistance, the British were routed August 12, 1806.

Another attempt was made by the British to regain their lost position, but was repulsed after a hard fought battle in the streets.

These brief statements were gathered from an old Spanish history of the republic by me, as of interest to one temporarily sojourning here.

On May 25, 1810, the inhabitants of the city gathered in front of what is now known as Plaza Victoria and declared themselves forever free from the Spanish yoke.

As the province, that had thus become independent, developed from year to year an ever strengthening relationship that was destined to be the tie that was to bind them all indissolubly into a nation having a republican form of government, they were enabled to resist frequent attacks

later from outside sources; and, though marked by various degrees of mutual distrust, discord and oftentimes revolution, the city steadily gained from the ever changing political conditions resulting therefrom.

On September 20, 1880, congress met at Belgrano and formally declared Buenos Aires to be the capital of the nation, the city being created a federal district for that purpose.

In 1910 the city and port of Buenos Aires were the scene of a grand military and naval demonstration, in which the powers of the world were all represented by some part of their armed forces, followed by a series of international expositions in the city, all in honor of the centenary of the national independence, and the city has been moving along with gigantic strides ever since.

TO HAVE CHAUTAUQUA.

Barnard Will Have One This Year—Other Items of Interest From That Place.

Mr. and Mrs. Wm. Fanning of Olathe, Kan., left for their home Monday morning after visiting at the home of Samuel Conlin for some ten days. A reunion of the Conlin family was held Sunday.

John Neal of Savannah was on our streets Monday. He has sold his barber shop on account of ill health and is looking for location.

Rev. Souners of the Church of Christ preached in Barnard Sunday, Monday and Tuesday nights.

Mr. Dewitt spent two days the first of this week in the home of Andrew Jensen of Wilcox.

Barnard is greatly in need of a water works system. We have a splendid site on which to place a tower, which would give us unusual pleasure. Our citizens, we believe, are public spirited enough to vote the money necessary if given the opportunity. Insurance is very high and our rates would be cut in two by the putting in of a water system.

Preaching both morning and evening at the M. E. church South, next Sunday, May 4. Everyone invited.

Mrs. Wm. Rasco and Mrs. H. Groves left for St. Joseph Thursday morning.

Todd Rector has returned from the West and is again at home in Barnard.

Mrs. Bessie Wallace of St. Joseph is visiting her parents, Mr. and Mrs. Key, west of town.

Mrs. Wm. Hoshor of west of town is in the hospital at Maryville, having undergone an operation a few days ago. She is getting along as well as could be expected.

The infant son of Mr. and Mrs. Charles Rice died April 10, 1913. Charles Wallace Rice, though dying the same day that he was born, will not be forgotten, nor was his short life in vain. May his parents recognize that now they have new and added interests in the Kingdom of God.

Mrs. Dewitt, who has been in California the past six weeks, left Los Angeles for Ventura, Cal., Saturday the 26th. She will stop with a brother there for a week or more, then return home.

Commencement exercises for White township Friday at Pleasant Grove church.

John Turner, west of town, purchased a new Reo car of Campbell & Pollard and made his initial run to Elmo Monday.

Barnard will have a chautauqua this summer. Contract has already been made for talent. This ought to be an improvement over our picnic and will attract more good citizens and less of the undesirable class.

WHAT THEY DO AT HOPKINS.

Autoists Pay Fifty Cents a Month for Dragging Streets and Keeping Up Crossings There.

According to this week's Journal, a movement has been inaugurated at Hopkins by Petis Lewis among the automobile owners to have the streets of the town dragged and the bad crossings put in proper condition. Each autoist is asked to pay fifty cents a month and this money goes into a fund to pay for the work. The city has

as much work done on the streets and crossings as the limited amount of money in the treasury will permit.

Captain Ezra Phipps of Company F of this city has received formal announcement of the state encampment to be held in Nevada, July 12 to 21.

Captain Phipps has been working hard with the boys here and expects to review in good fashion before Governor Major and Adjutant General O'Meara on the Vernon county battle fields during the sunny days of July. Company F has now forty-three men and the captain expects to have more for the ten days' outing.

In order to take advantage of the state maneuvers it is necessary to be enrolled a member of the Missouri war forces sixty days previous to the encampment. Company F is a member.

BANKS, TAKE NOTICE!

Here's a New Credit Rating That's Worthy of Your Personal Attention.

The Hopkins banks, hereafter, when they want an accurate index to a man's honesty, have evolved a scheme that applicants for loans will be accepted if the applicant has paid his subscription to the local paper, according to "Deacon" Morehead of the Hopkins Journal. The scheme is so clever that the Democrat-Forum would be in favor of the Maryville banks taking up the matter.

The following is what the Journal says about the plan:

If you haven't paid your subscription to the Journal, you had better get a move on yourself for a plan is to be adopted that will be even worse than the alligator paper so successfully used last year.

An Oklahoma bank cashier is to be given credit for the plan which is so clever that the Farmers and Merchants bank as well as the Bank of Hopkins has adopted it. By reading the following, you will learn why it will be to your advantage to liquidate your indebtedness to the Journal.

"Cashier Charles M. Delzell of the Farmers National bank of Cherokee states that he has at last found something better for the banking business than the guaranty law," says the Republican. "It does not guarantee the deposits, but it does have the effect of making all of the notes in the bank worth one hundred cents on the dollar. He stated that for years he had been wondering how to get accurate index to a man's honesty and assure himself that the paper will be paid for when due. He has at last evolved the scheme which will be the means of only gilt-edged people getting loans at his bank. When a citizen makes an application for a loan Cashier Delzell will call up the local newspaper offices and find out if the applicant has paid his subscription to the paper. If he has, he can borrow the limit at the bank; otherwise, his application will have to be backed with ten times the security."

The cashier of the banks in Hopkins are liable to call the Journal any moment to learn your standing, so the only safe way is to be Johnny on the spot by having your subscription paid a year in advance.

Home From California.

Mrs. Riley Daken, living southwest of Maryville, returned home a few days ago from a four-week's visit with her daughter and other relatives at Long Beach and Los Angeles, Calif. Mrs. Daken was not favorably impressed with the country or the climate.

Oakerson to Hopkins.

County Superintendent Oakerson went to Hopkins Thursday noon and will attend the rural commencement exercises of Hopkins township to be held there tonight.

Twenty-Eight in April.

There were twenty-eight marriage licenses issued during the month of April by Recorder Wray. For April, 1913, there were only fifteen, or an increase the past month of thirteen.

MRS. LARAMORE TELLS TROUBLES

Lady in Goodwater Describes Her Distressing Experience and Tells How She Was Finally Relieved.

Goodwater, Mo.—"Ever since I was a little girl," says Mrs. Riley Laramore, "I was a great sufferer from dyspepsia. I suffered misery after eating, and had terrible heartburn."

I thought I had to suffer this way as long as I lived, but when I began to take Thedford's Black-Draught, in small doses, every night, the heartburn was all gone in a few days, and I could eat without distress.

I took two small packages in all, and although that was some time ago, the dyspepsia has not returned.

I speak a good word for Thedford's Black-Draught whenever I have the opportunity."

If eating causes distress, we urge you to try Thedford's Black-Draught. It cleanses the system, helps the stomach to digest its food, regulates the bowels, and stimulates the liver.

It acts gently and is without bad after-effects. Try it. Price 25c.

M'CARTY OUTFIGHTS MORAN

Has Better of Ten Round Bout With Pittsburgh Heavyweight.

New York, May 1.—Luther McCarty outfought Frank Moran, the Pittsburgh heavyweight, in a ten-round bout here.

The fighting was at a fast pace for heavyweights. Moran did most of the leading and frequently the men stood toe to toe and swapped punches, both receiving much punishment about the body. McCarty relied on a hard left to the face, but often left his guard open, enabling his opponent to land a strong left hook. McCarty had the best of the first round, but Moran evened it up in the next. In the fourth Moran landed a straight left, drawing blood from McCarty's nose. The fifth was even, but McCarty took the next two. McCarty tired in the eighth, a left hook sending him to the ropes, and in the ninth Moran landed several good blows. McCarty finished strong, fending often in the last round.

GIVING WHISKEY AWAY?

James Markwell Arrested, Charged Charged With Giving a City Prisoner Whiskey.

James Markwell was arrested Thursday by Marshal Moberly, the charge being giving whiskey away to a city prisoner. Markwell pleaded not guilty and will be tried before Mayor Robey Friday morning at ten o'clock.

Markwell, it is said, gave a bottle of whiskey to Charles Bramble, who is now a city prisoner, working out his fine. Bramble was at the time working on the streets under the direction of Street Commissioner Woods, but Mr. Woods did not see the whiskey given to him, but discovered it later when Bramble became intoxicated.

Mayor Robey is trying to put a stop to the custom of a few giving city prisoners whiskey.

ALL AMENDMENTS ARE BOWLED OVER

Efforts of Republicans to Alter Tariff Bill Prove Failure.

PERSONALITIES INDULGED IN.

Underwood Predicts Revenue Measure Will Be Ready to Be Transferred to Senate Saturday—Mann Says the Sooner Will Be the Better.

Washington, May 1—"I think we'll finish with the tariff bill in the house by Saturday night," said Democratic Leader Underwood, after an all day debate on the iron and steel schedule.

The metal schedule is only the third of the fourteen schedules which are followed by the free list, the technicalities of the administrative provisions and the income tax plan, and many of the members of the house are prepared to see the debate stretch into next week. Representative Gardner (Mass.), one of the Republican members of the ways and means committee, figured on the passage of the measure about next Tuesday night. But Mr. Underwood, smiling and confident, saw nothing to disturb the plan for shifting the scene of the tariff battle to the senate with the opening of next week. The plan is to have the measure adopted within an hour after the reading for amendments has been concluded.

The Democrats with their overwhelming majority again bowed over all amendments proposed by the Republicans and Progressives. The ways and means committee, however, had ready and carried a number of its own amendments, all of a minor character, and designed to perfect the classifications.

The iron and steel schedule was the special target of attack, and Representative Palmer (Pa.), in charge of that schedule for the ways and means committee, was frequently reminded from the Republican side of the fact that the Bethlehem Steel company was in his district. Representative Mann (Ill.), the Republican leader, and others charged that the duty on ferro manganese was distinctly in the interest of the United States Steel corporation, with its numerous subsidiary plants, and that the enhancement of the value of ferro manganese in this country, under the proposed advance in rate, should be sufficient to warrant the Pennsylvania member's indefinite continuance in congress.

Mr. Mann declared, however, that while he thought the pending bill would be very injurious to the country, he did not believe in prolonging the agony unnecessarily and suggested that "as we are to have the passage in present form, the sooner the better." Personalities were indulged in several times.

M'ADOO HAS NEW POLICY

Banks Must Pay Two Per Cent Interest on Government Funds.

Washington, May 1.—The fiscal system of the United States governing deposits of federal funds in national banks was revolutionized by Secretary McAdoo of the treasury department with an announcement that all government depositories, whether active or inactive, would be required to pay interest at the rate of 2 per cent per annum beginning June 1 upon deposits of the government.

Simultaneously with this action the secretary authorized an immediate increase of \$10,000,000 in government deposits in the national banks, making the total \$52,649,964 from which the federal treasury will earn, under the new interest order, \$1,053,000 annually.

There are indications that Secretary McAdoo intends to release still more surplus money from the treasury vaults, and place it in general circulation through increased deposits with the national banks.
